Power Chain on Roller Conveyor

The Power Chain line of power conveyors is tough, versatile and nearly maintenance free. These conveyors are available in ten foot long by three or four foot wide designs. A chain on roller conveyor is ideally suited to convey a wide range of stone sizes and shapes. The PCR series moves material with variable speeds, reversible controls, allowing the operator to efficiently move material.

Standard Features

- Sealed shielded shaft bearings designed for high-load applications
- Heavy-duty 3.5 inch diameter rollers.
- Hydraulic or Electric Powered
- Forward, Reversing and Variable Speed Control
- 30,000 Pound Distributed Load Capacity
- Available with or without a Lift Table
- Constructed with durable C131 Conveyor Chain
- Adjustable Height Legs with Foot Plates
