## Power Roller Conveyor

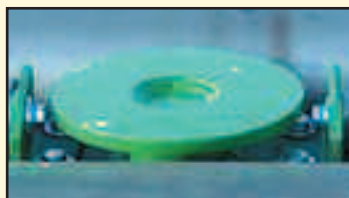

Our design engineers set out to create a new type of power roller conveyor. They kept in mind four things: profitability, adaptability, maintenance costs and life of the conveyor. The PRC series moves material with variable speeds, reversible controls, allowing the operator to efficiently move material. The PRC series is an affordable, yet rugged conveyor, manufactured in America specifically for the stone industry.

### Standard Features

- Sealed Self-lubricated Bushings designed for high-load applications
- Heavy-duty 6.5 inch diameter rollers.
- Hydraulic or Electric Powered
- Forward, Reversing and Variable Speed Control
- 30,000 Pound Distributed Load Capacity
- Available with or without a Lift Table
- Through-Roller Axles Provide Greater Durability and Improved Bushing Alignment
- Adjustable Height Legs with Foot Plates

Prices and specifications are subject to change without notice.
